PORTFOLIO

PERSONAL PROFILE

Software Engineering graduate with experience in Business Analysis and full-stack development. Skilled in translating business requirements into technical solutions through stakeholder communication, documentation, and Agile delivery.

PROJECT EXPERIENCE

Business Analyst & Developer · RaoChatHub (Business Brotherhood 2026)

Feb 2026 – Present

An AI-powered unified chat platform for SME e-commerce businesses. Awarded THB 100,000 seed funding through the Business Brotherhood 2026 program. Leading BA activities within a 5-member team while co-developing core modules.

- Elicited requirements from team lead and business stakeholders, translated findings into a full SRS document covering 58 use cases across the entire system.
- Decomposed requirements into actionable tasks and coordinated sprint kick-off for the development team.
- Facilitated meetings with faculty advisors to develop the Business Model Canvas (BMC).
- Developed frontend and backend modules for Account Management and Dashboard features (Next.js / Express.js).

Business Analyst & Developer · Equipment Lending System · Siam Denso Manufacturing Co., Ltd.

Jun 2025 – Apr 2026

Internship & Senior Project at Siam Denso Manufacturing - Owned the full BA lifecycle from discovery through UAT and handover on a production-deployed internal system.

- Conducted stakeholder interviews to gather, validate, and prioritise system requirements.
- Produced full system documentation: Use Case Diagrams, ER Diagrams, process flows, and approval forms.
- Coordinated sprint planning and reported progress to project stakeholders.
- Led UAT sessions with end users; documented defects and obtained sign-off for final delivery.
- Contributed to full-stack development (Next.js, Express, Prisma, SQL Server) to support delivery timelines.

Planning Manager · PRAMERN System · 92 Tech Co., Ltd.

Jul 2024 – Mar 2025

Year 3 academic team project (11 members) - a personnel performance evaluation system designed for educational institution staff.

- Created and maintained project planning artefacts: WBS, Milestone Charts, Gantt Charts, Velocity Charts, and Burndown Charts.
- Assigned tasks, tracked individual progress, and ensured on-time delivery of all project milestones.
- Managed meeting schedules, produced meeting minutes, and maintained requirements documentation.
- Authored automated UI test cases for 1 module using Playwright, bridging requirements documentation and QA validation.

SKILLS

Soft Skills	Critical Thinking, Analytical Thinking, Active Listening, Negotiation, Prioritisation
BA Skills	Requirements Gathering, SRS Documentation, Proposal Documentation, Software Design Diagram (Use Case/Activity/ER), UAT, Process Mapping, Agile/Scrum, UX/UI Design, Test Case Design
Technical Skills	Next.js, React, TypeScript, Tailwind CSS, HTML/CSS, Node.js, Express.js, Java, Prisma ORM, SQL
Tools & Collaboration	VS Code, GitHub, Google Sheets, Postman, Figma, Draw.io, Visual Paradigm, Miro, Office 365, Monday.com, Trello, Jira

CERTIFICATIONS

Super AI Engineer Season 5 (1st Place)

Oct 2025

Ranked 1st at Burapha University; represented the university at the National AI Exhibition with RaoChatHub.

Google Project Management Professional Certificate

Dec 2024

Google/Coursera — 6 course program: planning, execution, quality management, and Agile.

EDUCATION

Bachelor of Science in Software Engineering

2022 – 2026

Burapha University

GPAX: 3.83
